

WHY DO WE FALL ILL

Question 1: The disease that is non-communicable is_____.

1. malaria
2. marasmus
3. AIDS
4. jaundice

Answer: 2

Question 2: Malaria is caused by a_____.

1. protozoan
2. fungi
3. virus
4. bacteria

Answer: 1

Question 3: The husk of the isabgol seed with water produces relief from_____.

1. malaria
2. jaundice
3. flu
4. diarrhoea

Answer: 4

Question 4: Oral rehydration solution does not contain_____.

1. sodium chloride
2. sodium bicarbonate
3. sodium cyanide
4. glucose

Answer: 3

Question 5: The vitamin that is not fat soluble is_____.

1. vitamin A
2. vitamin B complex
3. vitamin D
4. vitamin E

Answer: 2

Question 6: Xerophthalmia is caused due to the deficiency of_____.

1. vitamin A
2. vitamin B
3. vitamin C
4. vitamin D

Answer: 1

Question 7: The 4D-syndrome characterises the following disease_____.

1. pellagra
2. xerophthalma
3. scurvy
4. beri-beri

Answer: 1

WHY DO WE FALL ILL

Question 8: Maize interferes with the absorption of_____.

1. ascorbic acid
2. nicotinic acid
3. thiamine
4. iodine

Answer: 2

Question 9: Sunlight enhances the production of_____.

1. vitamin A
2. vitamin B
3. vitamin C
4. vitamin D

Answer: 4

Question 10: The proposed "two in one" salt contains iodine and_____.

1. sodium
2. potassium
3. iron
4. manganese

Answer: 3

Question 11: An insect which transmits a disease is known as_____.

1. intermediate host
2. parasite
3. vector
4. prey

Answer: 3

Question 12: A chronic case of a disease denotes_____.

1. severe attack of the disease
2. mild attack of the disease
3. disease occurs for a very long period
4. all of the above

Answer: 3

Question 13: Which one is a communicable disease?

1. Malaria
2. Diabetes
3. Hypertension
4. Helminth

Answer: 1

Question 14: Which one of the diseases is not communicable?

1. Typhoid
2. Leprosy
3. Measles
4. Leukemia

WHY DO WE FALL ILL

Answer: 4

Question 15: Congenital diseases are those which_____.

1. are deficiency diseases
2. are present from time of birth
3. are spread from man to man
4. occur during life time

Answer: 2

Question 16: BCG vaccine is used to curb_____.

1. pneumonia
2. tuberculosis
3. polio
4. amoebiasis

Answer: 2

Question 17: AIDS virus has_____.

1. single strand DNA
2. double strand DNA
3. single strand RNA
4. double strand RNA

Answer: 3

Question 18: Causative agent of T.B. is_____.

1. defective liver
2. defective thymus
3. AIDS virus
4. weak immune system

Answer: 2

Question 19: Immuno-deficiency syndrome could develop due to_____.

1. defective liver
2. defective thymus
3. AIDS virus
4. weak immune system

Answer: 3

Question 20: T.B. is cured by_____.

1. griseofulvin
2. ubiquinone
3. streptomycin
4. encitol

Answer: 3

Question 21: AIDS is due to_____.

1. reduction in number of helper T-cell
2. reduction in number of killer T-cell
3. auto-immunity

WHY DO WE FALL ILL

4. non-production of interferons

Answer: 1

Question 22: Typhoid is caused by_____.

1. escherichia
2. giardia
3. salmonella
4. shigella

Answer: 3

Question 23: Which of the following is a mismatch?

1. Leprosy - Bacterial infection
2. AIDS - Bacterial infection
3. Malaria - Protozoan infection
4. Elephantiasis - Nematode infection

Answer: 2

Question 24: Fever, delirium, slow pulse, abdominal tenderness and rose coloured rash indicate the disease_____.

1. typhoid
2. measles
3. tetanus
4. chicken pox

Answer: 1

Question 25: Calcium deficiency occurs in the absence of vitamin_____.

1. D
2. A
3. C
4. B

Answer: 1
